Noura ABOUDI

Data Scientist/ Machine Learning Engineer/ Data Engineer/Data Analyst

00216 20 37 96 96
Aboudinoura89@gmail.com
Nabeul, Tunisia
https://www.linkedin.com/in/noura-aboudi-

OBJECTIVE

Motivated and proactive individual with more than 4 years Medical images processing using Machine learning and deep learning. I am confident in my ability to perform as a Data Scientist, Machine Learning Engineer, Data Engineer/ Data Analyst, Or Researcher in Computer Vision.

SKILLS

- Image classification using Deep learning models and machine learning algorithms.
- Vision Transformer, Attention mechanism, CNN, GAN, DCGAN, Transfer learning, Random forest, decision tree, SVM, etc algorithms applications.
- Image generation and data augmentation using DCGAN.
- Data visualization and results interpretation.
- Feature extraction and feature selection .
- Statistics analysis (ANOVA test, Tukey HSD test) and evaluation metrics.
- Python, Tensorflow, Keras, OpenCV,Pandas, Scikit learn,…
- SQL, Git, Mangodb
- Scrum, Agile
- Teamwork
- Time Management
- Problem Solving
- Autonomy
- LeaderShip
- Communication skills
- Adaptability

LANGUAGES

Arabic Frensh English

PROFESSIONAL EXPERIENCE

Sept. 2022-May 2023
Nabeul, Tunisia

Temporary Teacher Vacancy

Preparatory Institute for Engineering Studies of Nabeul

Data structures and Algorithms with python :

- Python Basics for Data Structuresand Algorithms.
- Arrays, lists, tuples, sets, and dictionary implementation and manipulation.
- Functions, modules, files, and packages
- Sorting and Searching Algorithms
- Complexity Analysis

Noura ABOUDI

Data Scientist/ Machine Learning Engineer/ Data Engineer/Data Analyst

Janu.2018 – Present
Tunis, Tunisia

Researcher: MEDICAL IMAGE CLASSIFICATION USING MACHINE LEARNING And DEEP LEARNING

LRBTM Laboratory ISTMT

- Collect and preprocess large amounts of image data, ensuring that it is properly labeled and annotated.
- Image generation using DGAN model.
- Develop and fine-tune machine learning and deep learning medical image classification.
- Extract relevant features from images, identify patterns and relationships between them, and classify them into different categories or labels.
- Deevelop a deep learning models base don: pre-trained CNN architectures, attention mechanism, Vision Transformer,etc.
- Validate and test the accuracy and robustness of the models using different

March 2020
Valetta, Malte

SESSION CHAIR : VISAPP, March 2020

May 2018 – Dec. 2019
Hammamet, Tunisia

DEVELOPER ANALYST

AT Company France(Offshore Company)

- Developer of mobile applications and websites
- Analyze, Developement, Implementation
- User behavior analysis

Feb. 2017 – Mars. 2018
Borj Cedria, Tunisia

DEVELOPER ANALYST

BenApps(Offshore Company)

- Developer of mobile applications and websites
- Analyze, Developement, Implementation
- User behavior analysis

EDUCATION

2018 - 2022
Tunis, Tunisia

PhD. Image Processing and Computer Vision
EniCarthage

2012-2014
Monastir, Tunisia

Master Degree in Computer Science
University of Monastir

2008-2011
Monastir, Tunisia

Bachelor's Degree in Computer Science
University of Monastir

PUBLICATIONS

2023	Automatic classification of ultrasound thyroids images using Vision Transformers and Generative Adversarial Networks, **Scientific African Journal, Q1, if=2.5**
2023	A new deep learning model for thyroid nodules classification based on attention mechanism and DCGAN generator model in shearlet domain, **Biomedical Signal Processing & Control, Q1, IF=5.07**
2022	Bilinear pooling for thyroid nodule classification in ultrasound imaging, **Arabian Journal for Science and Engineering, Q1, IF=2.8**
2020	Shearlet-based texture feature extraction for classification of Thyroid nodules in ultrasound image **VISAPP (class=B3), Malte, 2020**
2020	Multi-objectives optimization of features selection for the classification of thyroid nodules in ultrasound, **IET Image Processing journal, Q2, IF=1.7**
2018	Une méthode d'extraction et de sélection des attributs basée sur l'optimisation multi-objectifs : application à la classification automatique des nodules thyroïdiens dans des images ultrasonores .
2016	Reliable Attribute Selection Based on Random Forest (RASER). **ISDA 2016(class=B2)**

CERTIFICATION AND TRAINING

- October 2022: Certification in Scrum Fundamentals Certified
- June 2022: Member of the organizing committee of JETAIM'4 Predective Intelligence in Neuroscience Using Limited Data.
- March 2021 : Member of the organizing committee of JETAIM'3
- April 2020 : Introduction to Python
- June 2020 : Deep Learning fundamentals
- March 2019 : Formation how to get published: Sage editor.
- December 2018 Member of the organizing committee JeTAIM'2 DEEP TELLS MORE
- April 2018 : Member of the organizing committee JeTAIM'1 : Medical Images Processing
- Mars 2018 : Participation at the Spring School ATSIP 2018 : International Conference on Advanced Technologies for Signal & Image Processing

HOBBIES

- Cooking
- Footing
- Bricolag
